

Browser window showing the Dell Technologies support page for the PowerEdge R750. The URL is dell.com/support/home/en-in/product-support/servicetag/0-UUszbWIKbm9ReEVbK3Q5dm5OcUI0QT090/drivers. The page displays the product image, service tag (CRQX014), express service code (27799184488), and support services (ProSupport Plus, ending 02 JAN 2029). A sidebar on the right contains a "Contact Support" button. The bottom navigation bar includes links for Overview, Drivers & Downloads (active), Documentation, Service Events, and Parts & Repairs. A message at the bottom states: "For the minimum, recommended and latest code version for this product, [click here](#)."

Browser window showing the iDRAC Settings page. The URL is <https://10.243.94.78/restgui/index.html?21bb428dd48054cc13830950c1357098#/>. The page displays the iDRAC Settings interface, including sections for Time Zone and NTP Settings. The Time Zone is set to CST6CDT. The NTP Server Settings are configured with the following values:

Setting	Value
Enable Network Time Protocol (NTP)	Enabled
NTP Server 1*	172.26.208.10
NTP Server 2	10.250.26.17
NTP Server 3	172.28.135.37

The page also includes links for iDRAC Service Module Setup, Management USB Settings, and SMTP (Email) Server Settings. A sidebar on the right contains a "Help & Feedback" button.

Browser window showing the vSphere Client interface for host **ec6rr7u06.myl.com**. The URL is <https://wb5vc001.myl.com/ui/app/host/nav=h/urn:vmomi:HostSystem:host-558141:609313eb-6947-40fe-86b5-d7a72ae5d540/configur...>

The interface displays the **Configure** tab for the host, showing various configuration sections:

- Storage**
 - Storage Adapters
 - Storage Devices
 - Host Cache Configuration
 - Protocol Endpoints
 - I/O Filters
 - Storage Providers
- Networking**
 - Virtual switches
 - VMkernel adapters
 - Physical adapters
 - TCP/IP configuration
- Virtual Machines**
 - VM Startup/Shutdown
 - Agent VM Settings
 - Default VM Compatibility
 - Swap File Location
- System**
 - Licensing** (Selected)
 - Host Profile
 - Time Configuration

The **Licensing** section shows the following details:

Property	Value
License	E3-E3HADR001-ESX-LCN-8-0-001
License key	510CL-AEL52-189NO-07CK2-A9TN4
Product	vSphere 8 Enterprise Plus
Usage	2 CPUs (up to 32 cores)
License expiration	Never
Licensed features	Unlimited virtual SMP H.264 for Remote Console Connections vCenter agent for VMware host vSphere API Content Library Storage APIs vSphere vMotion X-Switch vMotion vSphere HA vSphere Data Protection vShield Endpoint vSphere Replication vShield Zones Hot-Pluggable virtual HW vSphere Storage vMotion

The bottom of the screen shows the Windows taskbar with the date and time: **Monday 18-Nov-24 12:01 PM**.
